EVOLOSTRUM BASE | 1-0-2

Soy Protein Hydrolysate with Seaweed and Humic Acids

Evolostrum Base™ offers all the benefits of seaweed and soy protein hydrolysate, enhanced by BioAg's superior humic acid concentrate, fortified by silicon. Evolostrum Base feeds soil microbes while also improving plant growth and yield. This formula is especially beneficial when used during key transitional periods, such as vegetative to bloom. Works fantastic in a compost tea!

BENEFITS

- Includes a complete bio-stimulant pack including humic, fulvic, kelp, amino acids and silicon compounds
- Improves efficiency of applied fertilizers
- Increases flowering, fruit set, while improving soil tilth and increasing trace element levels
- Increases water holding capacity and CEC of the soil
- Improves overall plant health and decreases risk of abiotic stress
- Optimizes plant performance and improves soil conditions for improved crop establishment

APPLICATION RATES

Soil/ Soilless/ Hydroponics	2.5 - 10 mL/gal
Compost Tea/ Foliar Sprays	5 - 10 mL/gal
Soil Fertility	1 - 4 gal/acre
Soil Mixing	1 - 2 pt/cubic yard
Lawn & Garden	8 - 12 oz/1,000 sq ft

Evolostrum Base™ can be applied to all crops including; trees, vines, ornamentals, small fruits, vegetables, row crops, feed crops, forage, and pasture. It can be applied by in-furrow, fertigation, and side dress. Consult with your agronomist for the correct number of applications.

OMRI® LISTED For Organic Use

REGISTERED cdfa ORGANIC INPUT MATERIAL

Guaranteed Analysis:

Water Soluble Nitrogen (N)..... 1%
Soluble Potash (K_2O)..... 2%

Contains non-plant food ingredients:

Humic Acids..... 2%

Form: liquid
Color: dark brown/ black
Odor: mild odor
Solubility: 100% soluble
pH: 10.0 - 12.0

Store in a cool, dry place.
