

VAM-ENDO MIX™

OMRI LISTED® For Organic Use

ENDOMYCORRHIZAL PLANT ROOT AND SOIL INOCULANT

VAM-ENDO-Mix™ is a blend of seven beneficial endo-associating species of mycorrhizae fungi cultivated on live roots (in vivo) and multiple species of benficial organisms. This innovative mix improves the rate of transplant success, promotes early establishment, and may improve the absorption of water and nutrients.

AUXILIARY BIOTIC SOIL AND PLANT SUBSTANCE
CONTAINS NON-PLANT FOOD INGREDIENTS

Contains the following species of vesicular arbuscular mycorrhiza:

Rhizophagus intraradices	53 propagules/gm
Septoglomus deserticola	40 propagules/gm
Claroideoglomus etunicatum	12 propagules/gm
Rhizoglomus clarum	8 propagules/gm
Claroideoglomus claroideum	12 propagules/gm
Funneliformis mosseae	32 propagules/gm

Contains the following species of beneficial microorganisms:

Bacillus megaterium	2.4 x 10^7 cfu/gm
Bacillus altitudinis	2.4 x 10^7 cfu/gm
Bacillus subtilis	3.2 x 10^7 cfu/gm
Bacillus licheniformis	6400 cfu/gm
Bacillus amyloliquefaciens	6400 cfu/gm
Streptomyces lydicus	32000 cfu/gm

DIRECTIONS FOR USE:
Greenhouse & Indoor Production:
PROPAGATION: Root dip: 1 to 2 oz. per gal

Field Application:
SOIL FERTILITY: 3 to 12 lbs. per acre
LAWN & GARDEN: 2 to 4 oz per 1,000 sq ft
1/4 tsp = 1 g, 1/2 tsp = 2 g - Perform jar test prior to use.

SOIL MIXING: 1 to 2 lbs./cubic yard
IN SEED: 1/4 to 1/3 lb per 100 lb of seed

GENERAL INFO: For proper agronomic application rates for your crop, soil type, and climate please consult with a local crop advisor, farm advisor or agronomist.

Information regarding the contents and levels of metals in this product is available on the internet at: https://www.aapfco.org/metals.html

NOTE: This product can be used to inoculate roots of most agricultural crops. Whitish growth is possible and does not compromise efficacy. For more info visit: www.BioAg.com

STORAGE: Store in cool, dry environment. Keep product in sealed container away from moisture.

CAUTION NOTICE: Buyer assumes all risk for use not in accordance with labeled directions. Harmful if swallowed. Avoid contact with skin, eyes, open cuts, and sores. Wash hands after use.
