

Bluelab pH & Conductivity Starter Pack

Everything you need to measure pH, conductivity and temperature

- Handheld design is compact and convenient.
- The backlit display is easy to read.
- Designed for nutrient reservoirs, the Bluelab pens are waterproof and float in any solution.
- Clean, hydrate, calibrate and care for your probes with the included Bluelab Probe Care Kit.

Increased Accuracy
History reporting and instant alarm notifications in one easy-to-use app.

Easy calibration
Easy two-point pH calibration with 30-day calibration reminders on an easy-to-read backlit LCD display.

Waterproof
Durable design that's waterproof and floats in solution.

Measure Conductivity and Temperature
Conductivity displayed in EC/CF, TDS (ppm 500), and ppm 700 scales. Temperature displayed in °C or °F.
