DERIVED FROM:

CALCIUM NITRATE,
POTASSIUM NITRATE,
SODIUM MOLYBDATE

PURPOSE OF PRODUCT:

V1™ and V2™ combine as a two part water soluble formula, providing all of the essential nutrients needed for vigorous plant growth throughout the entire vegetative stage.

DIRECTIONS FOR USE:

- 1-2 teaspoons per 5 gallons of water (1-2 grams per gallon)

- Add V1™ and then V2™ to your water source throughout the entire vegetative stage. Please see **floraflex.com/nutrients** for more detailed mixing instructions.

- For optimal results make sure the EC of your water is 0.2-0.3. The EC of your water can range up to, but should not exceed 0.7.

- At lower dosages V1™ and V2™ can be used as a base along with other additives.
