INNOVATING THE FUTURE OF CULTIVATION

Emergency Light 4ft

Intertek FOR DAMP LOCATION

Model#

HNTUNA4-A1/40/UNV/D10/FL/GY

The HNTUNA-040 is a tri-proof LED light, which means that the luminaire possesses at least three 'proofing' properties. Earning it's name, the HNTUNA-040 is waterproof, dust-proof, and corrosion-proof. The HNTUNA-040 emits a plant-safe, soft green ligth ideal for use in safely illuminating the plant's dark cycle when growing short-day crops. The green light minimally affects photosynthesis during the plant's dark cycle, safely allowing for tending to the crop.

RECOMMEDED SET-UP

- **Integrated Pest Management**
- **Illumination for Emergencies**

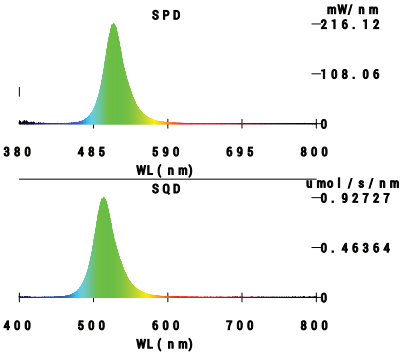

FEATURES & BENEFITS

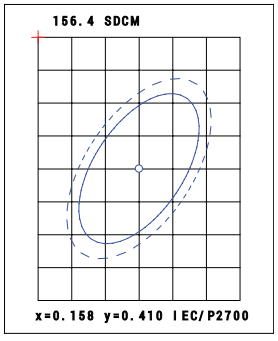

- Polycarbonate Housing and Frosted Lens in 4' length.
- Stainless Steel Lens Clips.
- IP protected long life and high-efficiency surface mount LEDs.
- Environment-friendly Powder Coat painted Reflector.
- Mercury and UV free. RoHS components.
- **Plug Included:** Comes a standard wall plug / power cord.
- Optional Emergency Battery Back-up Model -
  HNTUNA4-A1/40/UNV/D10/FL/GY/EM

TECHNICAL SPECIFICATIONS

WATTAGE	**40W**
EFFICACY	**130/140 lm/W**
COLOR	**GREEN (522.5-525nm)**
INPUT POWER	**120V-277V / 50/60Hz**
POWER FACTOR	**0.92**
THD	**20%**
WORKING TEMPERATURE	**-4ºF ~ 122ºF**
IP RATING	**IP66**

SPECTRAL DISTRIBUTION

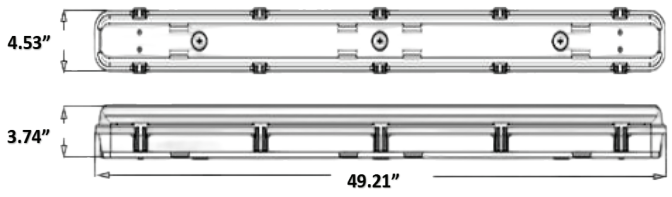

HEAT LOAD

HEAT LOAD PER FIXTURE	**136.49 BTU**
