Freeway®

Organosilicone Super Wetter

OMRI LISTED
For Organic Use

ORGANOSILICONE SURFACTANT BLEND
WETTER / SPREADER / PENETRANT

Principal Functioning Agents:

Alcohol ethoxylates, silicone-polyether copolymer, propylene glycol and dimethylpolysiloxane	100%
TOTAL	**100%**

Surfactant content: 99%
CA Reg. No. 34704-50031; WA Reg No. 34704-04005

KEEP OUT OF REACH OF CHILDREN

WARNING

Precautionary Statements: Causes serious eye irritation. Wash hands thoroughly after handling. **Environmental Precautions:** Prevent further leakage or spillage if safe to do so. Do not contaminate water. Do not allow to enter drains, sewers, or watercourses.

NET CONTENTS: 1 U.S. GALLON (3.785 L)

FREEWAY 1GL [L0723]

SPECIMEN

PERSONAL PROTECTIVE EQUIPMENT: Wear protective gloves/protective clothes/eye protection/face protection.

First Aid: If on skin or clothing: Take off contaminated clothing. Rinse skin immediatly with plenty of water for 15-20 minutes. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

FOR A MEDICAL EMERGENCY INVOLVING THIS PRODUCT, CALL 1-866-944-8565.

GENERAL: FREEWAY is a non-ionic, organofunctional silicone surfactant. FREEWAY will decrease surface tension of spray solution below conventional surfactants resulting in better coverage. FREEWAY promotes rapid spreading at low use rates. High water volumes can result in excessive run-off of spray. Adjust rates of FREEWAY or spray volume to get coverage without run-off.

MIXING: Fill spray tank half full with water and begin agitation. FREEWAY is a low foam formula but some foam may be generated during mixing. If foaming is anticipated or experienced add an anti-foaming agent like UNFOAMER® to tank before adding pesticides. Add pesticides / foliar nutrients as directed by label while maintaining agitation. After pesticides and foliar nutrients are thoroughly mixed, add desired amount of FREEWAY. Some pesticides have stated adjuvant use rates. In all cases, the pesticide manufacturer's label should be consulted regarding specific adjuvant use recommendations and that rate followed. Do not add adjuvant at a level that would exceed 5% of the finished spray volume. For tank mix compatibility concerns, conduct a jar test of the proposed mixture to ensure compatibility of all components. Mix components in the same ratio as the proposed tank mix.

DIRECTIONS FOR USE: Lower spray volume generally require high rates for best results:

	Fluid ounces / 100 gallons
Herbicides, Desiccants, Defoliants	12 to 64
Brush and woody species herbicides	16 to 64
Insecticides, Fungicides, Acaracides	6 to 16
Plant Growth Regulators, Foliar Nutrients	10 to 32
Turf and Lawns	6 to 12
General Wetter/Spreading	6 to 12

Basal Bark Treatment: FREEWAY is specially designed to aid penetration of fertilizers, nutrients, insecticides, fungicides, and herbicides through the bark. Use 1% to 2 1/2% FREEWAY by volume of spray solution.
Important: FREEWAY has demonstrated excellent plant safety; however, not all species and varieties have been tested. Before treating a large area, treat a small area and observe prior to full scale application. Not for aquatic use.

STORAGE AND DISPOSAL

STORAGE: Freezing will not harm FREEWAY, but will become thicker at colder temperatures. Warm product before use. Store in cool, dry place. Store in original container. Keep tightly closed. Do not reuse empty container. **DISPOSAL:** Do not contaminate water, food, or feed by storage or disposal. Dispose of contents/container on-site or at an approved waste disposal facility. Triple

SDS ONLY

rinse (or equivalent) adding rinse water to spray tank. Offer container for recycling or dispose of container in sanitary landfill, or by other procedures approved by appropriate authorities. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org.

For help with any spill, leak, fire or exposure involving this material, call day or night CHEMTREC 1-800-424-9300.

CONDITIONS OF SALE AND LIMITATION OF WARRANTY AND LIABILITY

BEFORE BUYING OR USING THIS PRODUCT, read the Directions for Use and the following Conditions of Sale and Limitation of Warranty and Liability. By buying or using this product, the buyer or user accepts the following Conditions of Sale and Limitation of Warranty and Liability, which no employee or agent of LOVELAND PRODUCTS, INC. or the seller is authorized to vary. LOVELAND PRODUCTS, INC. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use, when the product is used in accordance with such Directions for Use under normal conditions of use.
