OASIS® SOAX®

Granular Wetting Agent

Optimizes Water Efficiency and Accelerates Wetting of New Substrate Mixes

OASIS® SOAX® Granular Wetting Agent is a non-ionic surfactant that helps optimize water management of greenhouse and nursery crops. Designed to accelerate wetting and rewetting of newly blended mixes, this granular surfactant helps ensure crop hydration from propagation through retail.

Active Ingredient: Polyethylene-polypropylene glycol copolymer
Guaranteed Analysis: 25.0% Active Ingredient
Inactive Ingredients: Vermiculite 70.0%, Water 5.0%

Net Content: 120 Pounds
Density: 240–288 kg/m³ (15-18 lbs/ft³)

OASIS® GROWER SOLUTIONS
PROPAGATING INNOVATION.

OASIS® SOAX® Granular Wetting Agent Usage Instructions/Application Rates

Designed to accelerate the wetting and rewetting of newly mixed substrates that do not require prolonged storage, OASIS® SOAX® Granular Wetting Agent blends easily and uniformly into new growing media mixes to optimize irrigation efficiency and nutrient inputs. Additional water is not required during blending.

BLENDING RATES
Blend into growing media before filling containers or bagging.

Media Type	Blending Rate	
	Ounces per cubic yard of growing media	Grams per 1,000 liters of growing media
Nursery Containers	22.0 oz	815 g
Bedding Plants and Greenhouse	14.0 oz	520 g
Seedling and Propagation	8.0 oz	300 g

BLENDING INSTRUCTIONS
Blend OASIS® SOAX® Granular Wetting Agent into growing media during the mixing process using hoppers or continuous feeding lines. Blended with mixes prior to filling containers or bagging, this granular surfactant distributes evenly and uniformly, without the need to add additional water or spray during the blending process. For complete usage instructions, refer to Product Usage documents.

SAFETY PRECAUTIONS/HAZARDS
This material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200) and has no known significant effects or critical hazards for eye contact, inhalation, skin contact or ingestion. For safe handling, use in a well-ventilated area and wear protective equipment, including protective eyewear and clothing. Wash skin and clothing thoroughly with water after exposure. If eye exposure occurs, wash copiously with water for several minutes and seek medical attention if necessary. For skin irritation, wash exposed areas with soap and water, and seek medical attention if irritation persists. For inhalation, get medical attention if symptoms occur.

STORAGE AND DISPOSAL
► Storage: Store in original container in a cool, dry location out of direct sunlight and above freezing temperatures (32°F, 0°C). Stored properly, product shelf life is 2 years from manufacture date.
► Chemical Disposal: For opened and/or unused product, please check with your local waste disposal facility for appropriate disposal options.
► Container Disposal: After thorough rinsing, used containers may be offered for recycling or reconditioning or disposed of according to approved national and local regulations. Do not reuse empty containers.

WARRANTY
Seller warrants that this material conforms to its chemical description and is suited for the purposes stated on the label when used in accordance with directions under normal conditions of use. Seller makes no other expressed or implied warranty.
