L = Landscape Packaging

Use IPS #2795 or equivalent to glue into PVC fittings or saddles.
API™ Vinyl IPS Pipe and irrigation hose are designed for use on irrigation systems. They are not for use indoors or for static flow, continuous pressure (no-flow) conditions, for hot water, or as potable water service pipe. Use caution in above ground applications, as the pipe could be subjected to higher operating temperatures. High temperatures will greatly reduce pressure-holding policy.
