TRIBUS® ORIGINAL

ALL PURPOSE PLANT GROWTH PROMOTER

Tribus Original is a highly concentrated and durable blend of three plant-growth promoting bacterial species that mobilize, solubilize, and chelate macro and micronutrients in the rhizosphere for greater plant availability. The combination of beneficial bacterial species in Tribus not only promotes plant growth, but the species also support each other, working together to populate the rhizosphere proactively.

Contains: Bacillus subtilis, Bacillus pumilus, and Bacillus amyloliquefaciens

TRIBUS® ORIGINAL BENEFITS

• Very low application rates due to concentrated and resilient *Bacillus* endospores.

• Optimizes conditions for roots which protects plants from stress, increases plant health, and aids in plant productivity.

• Solubilizes phosphorus and potassium for greater plant availability.

• Increases crop tolerance to stress, including salinity, high EC, radiation, and extreme temperatures.

APPLICATION RATES

Crop	Root Drench (mL/Gal)	Foliar (mL/gal)
Greenhouse	0.5 - 2	5 - 20
Vegetable & Row Crops		
Permanent Crops (vines, trees)		
Berries		

Suitable for use on all crops as a foliar spray or soil drench. Usable on all stages of plant growth from seedling through harvest.
